The Tripod Camera Club Handbook

Quick Reference Guide

Last revision - Oct. 27, 2019

The purpose of this handbook is to learn about the club and about its activities. It is not meant to be the ‘by-laws’ of the club. Reference the “Constitution of the Tripod Camera Club” for more details.

In this handbook:

Categories of competition
Competition Rules
Scoring points in competition
How judging works
Helping in the club
Name Badges
Year-End Awards
Dues

Categories of Competition

There are several categories in which you can participate. You can enter up to 2 projected images or prints in each category each competition. The categories are:

Projected Images – Open (digital images)
Projected Images – Special Category (digital images)
Projected Images – Nature (digital images)
Monochrome Prints
Color Prints
Small Prints

All the categories above (other than Nature) have what is called an ‘Open’ theme. The entry can be of any subject. Some months there will be an *additional* ‘Special’ theme in some categories. All entries in the ‘Special’ category must represent the theme (e.g. Reflections, Churches, etc.).

Competition Rules

COMMON TO ALL COMPETITION CATEGORIES

- The intent and spirit of the competition is that ALL SIGNIFICANT CREATIVE INPUT INTO THE FINAL IMAGE IS TO BE THE WORK OF THE PHOTOGRAPHER. Given that, parts of the process used to create the final image can be executed by someone else - a commercial printer, for example -- in any of the print categories. Computer (digital) printers may be used to create the final print in any of the print categories. When the final image is produced by someone else, they should not contribute any modifications or enhancements to it.

- Every part of the image must have been "made" (initially photographed) by the maker, using a camera. That is, negatives, digital originals or any other images, made by someone other than the maker are not allowed. Digital clip art is not allowed. The addition of text or graphics is not allowed. Digital manipulation of the image is allowed as long as it abides by the other rules herein.
- The following digital enhancements are allowed, **except in Nature**: Textures, patterns, gradients and edge enhancements.
- Any image which has previously been submitted in Competition may be re-entered, in any subsequent Club year, provided it did not place or win honorable mention. However, neither that image, nor any image in any way derived from the same file or negative, may be entered more than once during any Club year. Once an image has placed or scored an Honorable Mention or higher, it must be retired and cannot be entered ever again in competition, regardless of category, with the exception described below in "Clarification of Re-entering an Image". **Note:** If an image is accidentally entered in the wrong category, it may be re-entered the same year in the correct category.

CLARIFICATION OF RE-ENTERING AN IMAGE

A winning entry, any projected image or print that has ever won a ribbon, cannot be reentered in competition, with the following exception. If you want to use the same negative or digital original of an image that has already won you can only do so if the resulting image is significantly different than the previous winning image. It could be different in the following ways:

- One is monochrome and the other is color
- More or less of the negative or digital original is used the second time to include or remove large objects

If most people would look at the two images and easily say they look like two different images, it is okay to enter the second one. As noted above, a "significantly different" image may NOT be entered in the same Club year as the previous entry.

- Points shall be awarded as defined in the section outlining the Point System.
- The Panel of Judges shall judge the competitions as directed by the Vice President.

The following digital enhancements are allowed, **except in Nature**:
Textures, patterns, gradients and edge enhancements.

General rules

- All photos must be taken by the exhibitor.
- A photographer may enter a maximum of two photos in each category.
- Once a photo wins a prize (1st through Honorable Mention) it is considered ‘retired’. It cannot be entered **ever** again.
- A photo that *does not* win a prize (1st through Honorable Mention) can be entered only *once per Club year*. It may be entered in subsequent years until it wins a prize. **Note:** If an image is accidentally entered in the wrong category, it may be re-entered the same year in the correct category.
- In Tripod competition, an image which does not fit the requirements of the categories as described below may be deemed to be “not adhering to the category” by any or all of the judges. As a result, the judge(s) may reduce the score. Though each judge scores according to his or her discretion, judges are advised to give non-compliant images a score of “1.”
 - Examples of images not adhering to the category are a multi-colored image in the monochrome category, the obtrusive appearance of the “hand of man” in the nature category, or, in the themed projection category, an image that clearly does not fit the theme.

Monochrome Print Competition

- The photographer must have taken the photo and all elements within the photo, with a camera.
- The print may be made in any fashion – traditional (wet) darkroom, digital (dry) darkroom, commercial printer, etc.
- The print may be any size as long as it fits in the display box (maximum vertical dimension is 20” and maximum horizontal dimension is 30”).
- Prints may be toned but not tinted or colored.
- Photographer’s name and the print title must be on the back, in the upper left-hand corner of the print. An arrow should point to the top of the print.

Color Print Competition

- The photographer must have taken the photo and all elements within the photo, with a camera.
- The print may be made in any fashion – traditional (wet) darkroom, digital (dry) darkroom, commercial printer, etc.
- The print may be any size as long as it fits in the display box (maximum vertical dimension is 20” and maximum horizontal dimension is 30”).
- The print may be hand colored.
- Photographer’s name and the print title must be on the back, in the upper left-hand corner of the print. An arrow should point to the top of the print.

Projected Images Competition – Open and Special Category

- The photographer must have taken the photo and all elements within the photo, with a camera.

- Digital images must be submitted by “last entry date” prior to the competition. See website for dates.

Projected Images - Nature Competition

Same rules as Projected Images Competition plus:

The "Spirit of the Rules" of the Nature Category, are such that the image should appear to be natural, without enhancements or modifications that give the image a "processed" or "un-natural" appearance. All projected nature images must depict observations from any branch of natural history such that human elements shall not be present unless on the rare occasion where the human elements enhance the nature story and they are *unobtrusive*. This is often referred to as the absence of ‘the hand of man’. It is the judges’ decision as to whether or not an occurrence of ‘the hand of man’ is acceptable. Zoo and archeological subjects are allowed. **It is usually risky to include the ‘hand of man’ in any form in the Nature category.**

Makers may perform any enhancements and modifications that improve the presentation of the image, but do not change the truth of the original nature story. It may be risky if any digital enhancements are obvious. This means that one cannot add nor remove elements, (except by cropping), combine elements from separate images, rearrange elements, or clone elements. An element would be defined as the main subject, such as a bird(s) or a flower(s) etc.

1. Nature images must be taken by the maker, anything man-made in the image must not be intrusive. Zoo and archeological subjects are allowed.
2. Two Projected images taken by the member are eligible for each Competition.
3. Each entry shall show the name and address of photographer. For digital images, the files must be submitted by the “last entry date” for each competition. The files must follow the “uploading guidelines” and include titles and photographer’s name when submitted. (See website for uploading guidelines and last entry dates) All images must be compatible with the projection equipment used during competition as determined by the Vice President or President in the absence of the Vice President and will not be eligible if special handling procedures are required.

Small Print Competition

- The photographer must have taken the photo and all elements within the photo, with a camera.
- The print may be made in any fashion – traditional (wet) darkroom, digital (dry) darkroom, commercial printer, etc.
- Print may be either monochrome or color.
- The print shall be no larger than 8”x12”.
- The print must be mounted and the mount can be no larger than 12”x16”.
- Photographer’s name and the print title must be on the back, in the upper left-hand corner of the print. An arrow should point to the top of the print.

Scoring points in competition

The following points are awarded for the winning entries:

1 st place	24 points
2 nd place	20 points
3 rd place	18 points
4 th place	16 points
5 th place	14 points
Honorable Mention	10 points

The points for the ‘End of Year’ Competition winners are more than the monthly competition points. They are:

1 st place	25 points
2 nd place	20 points
3 rd place	19 points
4 th place	18 points
5 th place	17 points
6 th place	16 points
7 th place	15 points
8 th place	14 points
9 th place	13 points
10 th place	12 points
Honorable Mention	10 points

How judging works

There are three judges for each category. They judge the entry in three areas – Composition, Technique (Technical Quality) and Impact. Each area is worth 3 points, for a total of 9 points from each judge. The judge’s scores are totaled for the final score on the entry.

Why are do some judges give it a 0 (zero)?

A judge cannot judge their own entry or their spouse’s so they give the entry a score of zero. The other two scores are then averaged to get the final score for the entry.

Helping in the club

The club is always grateful for volunteers to help with any of the many tasks that are needed to keep the club running. Each job will earn you ‘service’ points. The service points are accumulated for awards at various point levels. Some of the examples of the jobs available and the service points awarded for them are:

Treasurer/Membership	150
Program Chairman	100
Newsletter Editor	200
Print Scoring	75
Projectionists	75

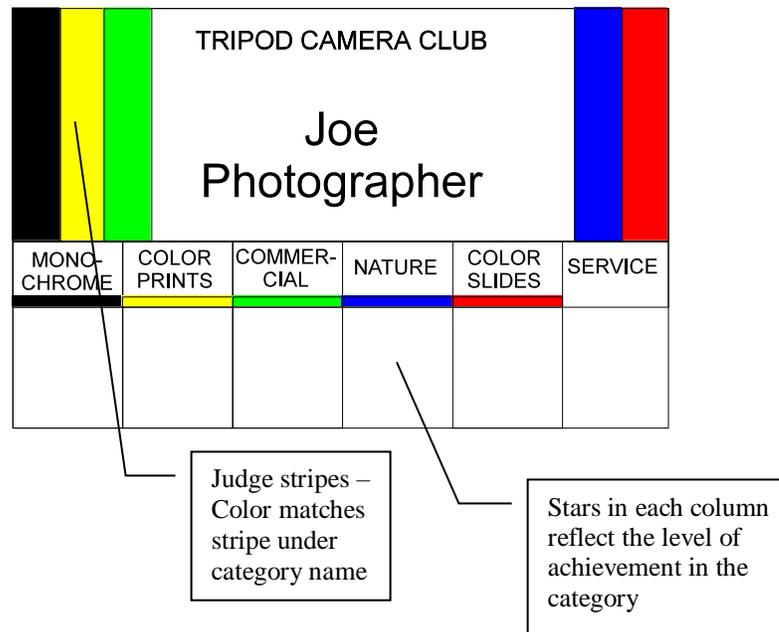

Year-End Awards

The points you accumulate throughout the year in competition or for volunteer work in the club will earn you awards at year-end. Awards increase as points increase and points are accumulated from year to year for the opportunity for greater awards. Awards vary from certificates, to medals to plaques. Some of the award levels are:

Ability to judge in competition	75 points
Associate	150 points
Bronze Star (medal)	450 points
Silver Star (medal)	750 points
Gold Star (medal)	1050 points
Galaxy Award	2000 points

Name Badges

Each member has a badge they wear during the club meetings. It includes their name, what categories they can judge and indications of their accumulated points in each category. A blue badge indicates the member has received the ‘Fellow’ award by accumulating at least 400 competition points and 400 ‘service’ points. The badge looks like the following:

Dues

Individual dues are \$35.00 per year. Husband and wife dues are \$50.00 per year. For “Senior” members (over 60 years old and a member for at least 10 years), individual dues are \$30.00 per year and dues for couples is \$40.00 per year.

Anyone with unpaid dues cannot compete after the last meeting in September until their dues are paid.

**BY-LAWS OF
THE TRIPOD CAMERA CLUB, INC.
DAYTON, OHIO**

As approved by members:

October 27, 1988	August 20, 2003
October 10, 1990	September 13, 2005
September 16, 1996	September, 14, 2010
June 9, 1999	March 15, 2011
March 23, 2000	July 7, 2013
August 23, 2001	September 9, 2014

ARTICLE I

MEMBERSHIP: Membership is intended for local residents. Any person seriously interested in photography may apply for membership in the Club, after attending at least two meetings. Such application for membership shall be subject to the discretion of the board. A dealer member must only pay dues to be members in good standing.

Dealer Membership: Commercial establishments may become sustaining members of The Tripod Camera Club, Inc. for the purpose of encouraging photography on payment of annual dues. Such membership allows one (1) individual from the sustaining member organization to enjoy the rights and privileges of a club member.

ARTICLE II

FINANCE: Individual dues shall be \$35.00 per year. Husband and wife dues shall be \$50.00 per year. For "Senior" members (over 60 years old and a member for at least 10 years), individual dues shall be \$30.00 per year and dues for couples shall be \$40.00 per year. Anyone with unpaid dues cannot compete after the last meeting in September until their dues are paid. For new members, only, joining after March 1, dues shall be applied to the remainder of the current competition year and be considered paid for the following year as well. Associate Membership dues shall be \$10.00 dollars per year, available to full time students only. Dues for dealer membership shall be \$35.00 per year. Dues are not refundable.

Payment of operating expenses shall be approved by the Executive Board. Funds for purchase of equipment and for special purposes, shall be approved by a quorum of the board membership.

ARTICLE III

ELECTIONS: Election of the club officers shall be held yearly. Nominations shall be made by a Nominating Committee to be appointed by the President or be made from the meeting floor prior to election. The new Officers shall be installed at the last regular meeting of the year. No elected Officer may hold the same post for more than two consecutive years. Vacancy of the President shall be filled by the advancement of the Vice-President. If the offices of both the President and Vice-President are vacated, the Secretary shall oversee an election to fill both vacancies. Officers shall be elected only for the duration of the unexpired terms.

The nomination process should consist of the following: The nomination committee should consist of a chairman and 3 Fellows of the club, one of whom shall be chairman. They should

meet with the board, formally or informally, in the January to February timeframe to begin the nomination process by discussing possible candidates. An announcement should be made at the March meetings and printed in the newsletter that describes this nomination process, names the committee members and invites anyone to volunteer or make suggestions to the committee. These suggestions are to ensure an open process. The committee should narrow the list to one candidate per position prior to the election. The committee should be sure the candidates are willing to assume the job if elected. The elections should be held at the first meeting in May.

ARTICLE IV

COMMON TO ALL COMPETITION CATEGORIES

- The intent and spirit of the competition is that **ALL SIGNIFICANT CREATIVE INPUT INTO THE FINAL IMAGE IS TO BE THE WORK OF THE PHOTOGRAPHER**. Given that, parts of the process used to create the final image can be executed by someone else - a commercial printer, for example -- in any of the print categories. Computer (digital) printers may be used to create the final print in any of the print categories. When the final image is produced by someone else, they should not contribute any modifications or enhancements to it.
- Every part of the image must have been "made" (initially photographed) by the maker, using a camera. That is, negatives, digital originals or any other images, made by someone other than the maker are not allowed. Digital clip art is not allowed. The addition of text or graphics is not allowed. Digital manipulation of the image is allowed as long as it abides by the other rules herein.
- The following digital enhancements are allowed, **except in Nature**: Textures, patterns, gradients and edge enhancements.
- Any image which has previously been submitted in Competition may be re-entered, in any subsequent Club year, provided it did not place or win honorable mention. However, neither that image, nor any image in any way derived from the same file or negative, may be entered more than once during any Club year. Once an image has placed or scored an Honorable Mention or higher, it must be retired and cannot be entered ever again in competition, regardless of category, with the exception described below in "Clarification of Re-entering an Image". **Note**: If an image is accidentally entered in the wrong category, it may be re-entered the same year in the correct category.

CLARIFICATION OF RE-ENTERING AN IMAGE

A winning entry, any projected image or print that has ever won a ribbon, cannot be reentered in competition, with the following exception. If you want to use the same negative or digital original of an image that has already won you can only do so if the resulting image is significantly different than the previous winning image. It could be different in the following ways:

- One is monochrome and the other is color
- More or less of the negative or digital original is used the second time to include or remove large objects

If most people would look at the two images and easily say they look like two different images, it is okay to enter the second one. As noted above, a “significantly different” image may NOT be entered in the same Club year as the previous entry.

- Points shall be awarded as defined in the section outlining the Point System.
- The Panel of Judges shall judge the competitions as directed by the Vice President.

MONOCHROME PRINT COMPETITIONS

1. Prints may be made in any fashion – traditional (wet) darkroom, commercial printer, digital (dry) darkroom, etc. If there is more than one category for entry, no more than two entries shall be in one category.
2. Prints may be of any size as long as they fit into the Club print display box (maximum vertical dimension is 20” and maximum horizontal dimension is 30”). All prints must be mounted.
3. Prints may be toned, but tinting or coloring is not acceptable. Only monochrome prints are eligible.
4. Each print shall be titled and shall have the member’s name, address and title on the back of the mount in the upper left-hand corner. Titles shall not be read during Competition.

COLOR PRINT COMPETITIONS

1. Prints may be made in any fashion – traditional (wet) darkroom, commercial printer, digital (dry) darkroom, etc. If there is more than one category for entry, no more than two entries shall be in one category.
2. Prints may be of any size as long as they fit into the Club print display box (maximum vertical dimension is 20” and maximum horizontal dimension is 30”). All prints must be mounted.
3. Prints may be hand colored.
4. Each print shall be titled and shall have the member’s name, address and title on the back of the mount in the upper left-hand corner. Titles shall not be read during Competition.

PROJECTED IMAGES – OPEN COMPETITIONS

1. All projected images and all elements therein shall be taken by the photographer. If there is more than one category for entry, no more than two entries shall be in one category.

2. Each entry shall show the name and address of photographer. For digital images, the files must be submitted by the “last entry date” for each competition. The files must follow the “uploading guidelines” and include titles and photographer’s name when submitted. (See website for uploading guidelines and last entry dates) All images must be compatible with the projection equipment used during competition as determined by the Vice President or President in the absence of the Vice President and will not be eligible if special handling procedures are required.

PROJECTED IMAGES - NATURE COMPETITIONS

The "Spirit of the Rules" of the Nature Category are such that the image should appear to be natural, without enhancements or modifications that give the image a "processed" or "unnatural" appearance. All projected nature images must depict observations from any branch of natural history such that human elements shall not be present unless on the rare occasion where the human elements enhance the nature story and they are *unobtrusive*. This is often referred to as the absence of ‘the hand of man’. It is the judges’ decision as to whether or not an occurrence of ‘the hand of man’ is acceptable. Zoo and archeological subjects are allowed. **It is usually risky to include the ‘hand of man’ in any form in the Nature category.**

Makers may perform any enhancements and modifications that improve the presentation of the image, but do not change the truth of the original nature story. It may be risky if any digital enhancements are obvious. This means that one cannot add nor remove elements, (except by cropping), combine elements from separate images, rearrange elements, or clone elements. An element would be defined as the main subject, such as a bird(s) or a flower(s) etc.

4. Nature images must be taken by the maker, anything man-made in the image must not be intrusive. Zoo and archeological subjects are allowed.
5. Two Projected images taken by the member are eligible for each Competition.
6. Each entry shall show the name and address of photographer. For digital images, the files must be submitted by the “last entry date” for each competition. The files must follow the “uploading guidelines” and include titles and photographer’s name when submitted. (See website for uploading guidelines and last entry dates) All images must be compatible with the projection equipment used during competition as determined by the Vice President or President in the absence of the Vice President and will not be eligible if special handling procedures are required.

SMALL PRINT COMPETITIONS

1. Prints may be made in any fashion – traditional (wet) darkroom, commercial printer, digital (dry) darkroom, etc. A total of two prints can be entered in this category. Either monochrome or color prints may be entered.
2. Prints shall be a maximum size of 8 x 12 inches, but must be mounted with a mount size not to exceed 12 x 16 inches.

3. Each print shall be titled and shall have the member's name, address and title on the back of the mount in the upper left-hand corner. Titles shall not be read during competition.

NUMBER OF PRIZES AWARDED

The following prizes will be awarded in each category of the monthly competition with up to 40 entries: 1st Place, 2nd Place, 3rd Place, 4th Place, 5th Place, **and five Honorable Mentions.**

There should always be a minimum of 10 ribbons awarded. An Honorable Mention will be awarded for each additional four entries in that category. If there are more than 40 entries, the awards given should equal or exceed 25% of the total number of entries. If, after 25% of the entries have been awarded a ribbon without assigning any Honorable Mention ribbons, the next highest score will be awarded Honorable Mentions.

Awards of Merit - Members with Fellow status will be asked at each competition to select images from those that did not win a ribbon to receive an Award of Merit. Three Fellows should each select up to 12 images they feel deserve recognition for their photograph. The winning novice images should also be considered. These 12 photographs will receive an Award of Merit certificate and also be given an Honorable Mention ribbon. The photographer will receive the standard 10 points for the HM and the image will be eligible for end-of-year competition.

Judging must be performed giving equal weight to each of the three categories: Composition, Technique (Technical Quality), and Interest (Impact); and the range of the voting shall be the prerogative of the vice-president. In Tripod competition, an image which does not fit the requirements of the categories as described below may be deemed to be "not adhering to the category" by any or all of the judges. As a result, the judge(s) may reduce the score. Though each judge scores according to his or her discretion, judges are advised to give non-compliant images a score of "1."

- Examples of images not adhering to the category are a multi-colored image in the monochrome category, the obtrusive appearance of the "hand of man" in the nature category, or, in the themed projection category, an image that clearly does not fit the theme.

Ties for first place will all be awarded a first place ribbon and first place points. Those projected images or prints not selected for first place will be awarded the next available place, assuming each image tied for first, is a place. For example, if 3 images tie for first place, the image(s) with the next lowest score will be awarded 4th place.

ROLL OF HONOR

The Club desires to reward continued participation and growth within our Club and in the photographic community in general. To truly advance, it would seem that a person should

expand both their own competency and also their contributions. Participation in contests without service to society is narrow and confining. For these reasons, a merit award system is patterned loosely after national programs but tailored to meet our needs at this time. The following is a summary of the “Roll of Honor”.

Guests: Always welcome and to be encouraged. We are an open society not a closed private club.

Members: All paid up members who have qualified under present standards

Judges: A judge is required to earn 75 points in Club competition in the respective category.

When someone reaches 75 points in any category, they can be a judge in all categories.

Associates: An associate is required to earn 150 points in club competition in the respective category or in service points.

Star Medal Awards: Star medals will be awarded for the following listed accumulations of competition points in the respective category or in service points.

Bronze Star	450 points
Silver Star	750 points
Gold Star	1050 points

For the purpose of Club competition, the categories shall be Projected images, Monochrome Prints, Nature images, Color Prints and Small Prints.

Galaxy Awards (Plaques): Tripod Camera Club, Inc. members earning competition and service points beyond those required for the Gold Star medals may go on to earn Galaxy Awards (Plaques). These awards will honor members who have earned 2,000 or more competition or service points. The first Galaxy Award Plaque will be presented upon accumulation of 2,000 competition points in the respective category, or 2,000 service points. Requirements for additional Galaxy Awards (2nd, 3rd, etc.), in each of the six categories, will be double the previous one, as follows:

2 nd Galaxy	4,000 points
3 rd Galaxy	6,000 points
4 th Galaxy	8,000 points
5 th Galaxy	10,000 points
6 th Galaxy	12,000 points
7 th Galaxy	14,000 points
8 th Galaxy	16,000 points

Fellow Awards: Requires the accumulation of 400 competition points and 400 service points.
