

Digital Projection Entry Instructions

The image must be a jpg file. Raw, Photoshop PSD, Tiff, bmp and all other file types cannot be used.

There are file size limitations for competition.

- 1) The **Height** dimension can be no more than **1080 pixels**. The 1080 pixels in height is the same regardless of orientation (portrait or landscape) but it is only a maximum size, not a required size.
- 2) **There is a limit on the width of 1200 pixels**, so with landscape oriented images, make the width 1200 and let the height fall to whatever it needs to be to keep the original proportions.

Using Photoshop:

In order to prepare an image for competition according to the guidelines above, do the following:

- 1) Open the file in Photoshop then select the "Image Size" function from the menu
- 2) If you see any of the following fields at the bottom of the Image Size window, make sure they are checked.
 - a. "Scale Styles"
 - b. "Constrain Proportions"
 - c. **"Resample Image" or "Resample" – this is the most important field to have checked**
- 3) The Resample style should be "Automatic" or "Bicubic Sharper".
- 4) The Resolution makes no difference for projection. It can be any value.
- 5) In the Pixel Dimensions box at the top, **change the Height dimension to 1080 pixels**. (The Width dimension should automatically change proportionally)
- 6) Click, OK to complete the Image Size function
- 7) Select File/Save As from the menu
- 8) In the Save As window, find and select the folder in which you want to save the file
- 9) Name the file in the "File Name" box
- 10) Select JPEG in the "Format" box (below "File Name")
- 11) Click the Save button
- 12) If you are asked what quality you want, select Maximum or 10

Using Lightroom:

1. In Library mode, select the image you want to use
2. Click on Export (lower left of the screen)

Digital Projection Entry Instructions

3. Under the File Settings section, choose JPG for Image Format; Quality should be 75 or higher
4. In the Image Sizing section, check the "Resize to Fit" box and then the appropriate options for width and/or height, in pixels, as described above.
5. Resolution doesn't matter when projecting an image
6. Click on the Export button and then the image is ready to be uploaded for competition

On the right side of the interface, there are several input fields and buttons:

- "Maximum entries this date: Your entries: 0"
- "Maximum picture size (width or height):"
- "Judges:"
- "Your Pictures (Click to select): Show All"

7) A list of available competitions should be displayed on the left. Select the competition for which you want to upload your images by clicking on it. (As always, only two images are allowed per photographer, per competition.) The screen should now look like the following:

This screenshot shows the same interface as the previous one, but with the "Sep 25, 2108 Nature" contest selected and highlighted in blue. The right side of the interface is now more detailed:

- "Maximum entries this contest: 2 Your entries: 0"
- "Maximum picture size (width or height): 1200"
- "Your Pictures (Click to select): Show All"
- A header for the selected contest: **Sep 25, 2108 Nature** Time Left: 11 days, 7 hours and 18 minutes
- Instructions for the upload process:
 - Step 1 - New Picture**
 - Step 2 - Enter Title and Photographer's Name
 - Step 3 - Save Picture
- Input fields for:
 - Picture Title:
 - Photographer's Name:
 - Picture Size:
- A set of buttons for managing the picture:
 - New Picture (or drop here)
 - Replace Picture (or drop here)
 - Save Picture and Info
 - Delete this Picture

Digital Projection Entry Instructions

- 1) Click on the New Picture button. Use this to find and select your jpg file that you want to upload
- 2) Enter the title on the right. **If you are competing in the Novice level, the word "Novice" must be added to the end of the title.** Your name should be filled in already. If you are entering images for someone else, be sure to change the Photographer name.
- 3) Click the "Save Picture and Info" button and wait for the upload to complete. This may take several minutes depending on the speed of your Internet connection
- 4) Repeat for your second image. You can upload for any competition that is listed, at any time
- 5) Once you've uploaded one or more images, you will see that they are listed on the screen. You can get a small preview of the image by clicking on "Select". Delete an image by first clicking "Select" and then clicking "Delete this Picture". To change the Photographer or Title, delete the image and upload it again. You will not see anyone else's images'
- 6) When you are done with all your uploads, click on Log Out in the upper right of the screen

Use Method 2 from the web site (<http://www.photocontestpro.com/Default.aspx>) if you are using an Apple computer or Method 1 did not work for you. See instructions for Method 2 on the next page.
